

JUDITH WIERSEMA

THE NUN

A quiet gesture of light

DESCRIPTION

A gentle curve, leaning softly forward in silence.

The form of The Nun is reduced and restrained, shaped by a subtle downward movement that brings a sense of calm and intimacy to the space. Light is not projected, but quietly present, enhancing the atmosphere rather than defining it.

Inspired by the silhouette of a nun's habit, the reference remains understated. Recognition comes slowly, often only after a second glance.

Each piece is crafted by hand, resulting in subtle variations that are inherent to the process
